L&T Shelving System

FUNCTIONAL VERSATILITY FOR ALL OF YOUR STORAGE NEEDS

- Record Filing
- Industrial Storage
- Healthcare Records
- Library Materials
L&T Shelving is the most comprehensive shelving system of its kind.
The built-in versatility of L&T Shelving offers the ability to handle any type of filing or storage requirement at any time!
L&T Shelving
The System With Built-In Flexibility

L&T Shelving is the versatile, cost-effective and low-cost solution to all your storage requirements. Whether it’s office record filing, healthcare record filing, industrial storage or periodical/book storage — L&T Shelving is the right choice.

In today’s world, change is inevitable. L&T Shelving adjusts to keep up with changes in your organization’s storage and record keeping requirements. With a unique interlocking keyhole slot design, sway bars, nuts and bolts are eliminated for obstacle-free access to your stored items.

L&T Shelving is designed for fast assembly. It literally snaps together in minutes for quick installation and reconfiguration whenever necessary. L&T Shelving’s vast array of shelf component options is designed to stand its ground in a fast paced, changing world.

For a low-cost, space saving filing and storage solution for all of your organizations needs — L&T Shelving is your best choice.

Why is it called “L&T”? 
L&T Shelving gets its name from its unique construction allowing endless expansion. Add sections to an existing installation by using “T” uprights as common center posts and finish with “L” uprights.
L&T Shelving provides the highest filing density per square foot, whether you're filing letter or legal-sized documents. L&T can be configured to offer single or double-sided record access for easier filing and retrieval in less space. Compared to conventional four-drawer vertical files you would need 100 square feet of floor space to hold 1500 linear inches of material, while L&T Shelving only needs 40 square feet. That's a floor space savings of 60%.

L&T Shelving offers a wide array of components designed for open shelf filing applications. Choose from 22 or 18 gauge shelves based on load requirements. Optional backs, file dividers and reference shelves allow you to build or expand a system to meet your filing needs. L&T Open Shelving is also easily used in conjunction with mobile systems.
L&T X-Ray Shelving

Handling odd sized and oversize diagnostic records is a snap with L&T X-Ray Shelving. Our sturdy 18-gauge shelves, with optional reinforcements, can be configured to hold up to 1,000 lbs. per shelf. Extra high 12" dividers or optional full-height bin dividers assure that materials stay safely upright and organized.

L&T Library Shelving

L&T Library Shelving, with its unique double-wall panel uprights, is designed to allow easy access to books and periodicals by preventing them from slipping behind the posts thus preventing damage to stored items.

A wide variety of components such as reference shelves, dividers, and periodical shelves, provides storage and display options for most library materials.

L&T Heavy Duty Shelving

The extra strength of L&T Heavy-Duty Shelving provides a system that handles even your heaviest stockroom or industrial storage requirements. Its sturdy 18-gauge shelves, with optional reinforcements, can be configured to hold up to 1,000 lbs. per shelf. Optional full-height bin dividers can create enclosed areas for secure storage of small loose items.
L&T Shelving
Configuring Is As Easy As 1, 2, 3!

1. Uprights & End Panels

Open Single          Closed Single   Library Double Wall

Uprights form the basic structure of L&T Shelving. A variety of uprights are available to fit your specific needs. Choose from open uprights that allow visibility of material from all sides or closed uprights for a more finished appearance. All of our uprights are available in both single and double entry versions. Use “L” Uprights for individual units or “T” Uprights for add-on units.

L&T Shelving offers many end panel options that aesthetically fit in your office environment. Choose from many fabric colors or a Light Oak wood finish for a custom appearance.

Fabric Options

117 Ash          106 Blue Neutral          34 Buff          108 Cherry Neutral          109 Crystal Blue
105 Green Neutral          111 Lavender          115 Oatmeal          114 Quartz          112 Teal
116 Gray Mix          110 Apricot          113 Wedgewood          107 Wheat          118 Wine

Fabrics and finishes shown are only approximations of actual colors. If greater accuracy is required contact your local L&T dealer for additional information.
2. Shelf & Door Options

L&T Shelving offers a wide array of shelves and door options to fit your specific storage requirements. Choose your shelf-type, the appropriate shelf support, and single or double-entry shelves. Select from a wide range of shelf dividers that help keep your materials upright, accessible, organized and safe.

For many organizations, security is an important element in their filing and storage requirements. L&T Shelving boasts a wide selection of door options to meet any security requirements. Basic door types include hinged, sliding and roll-up styles all lockable with a single key. For medical records, L&T Shelving door options meet all HIPAA* healthcare privacy regulations.

Sliding Single Door Assembly
Single sliding door offers lockable security** for 36", 42" and 48" wide units. Allows access without intruding into aisle ways.

Rollup Door Assembly
Metallic silver locking tambour door secures** 36", 42" and 48" wide units. Perfect for all medical environments.

* Health Insurance Portability and Accountability Act of 1996
** Meets HIPAA (Health Insurance Portability and Accountability Act of 1996)
Healthcare privacy regulations for safeguarding personal health information.
3. Shelf and Filing Accessories

Why is L&T Shelving the most popular shelving system? Simply, because depending on your current and future needs, L&T Shelving has the right shelf accessory to handle your requirements. From reference shelves, dividers, bin partitions, bases, backs and more; L&T Shelving fits your specific needs now and in the future. Below is just a small sampling of accessories available for an organized office environment.

Reference Shelf
Provides a convenient pull-out work space anywhere. Reduces filing space by 1”.

Shelf Reinforcements
Adds support to deeper shelves. Spans shelf supports from front to back. Made of 13 gauge steel.

Front Base
Prevents items from rolling under shelving and gives a finished look. Available in 2 5/16” or 3 13/16” heights.

Bin Partitions
Bin dividers or front and center divider combine to make compartments for small parts supplies.

Unslotted Center Divider
Keeps materials from mixing on double entry shelves.

Back
Provides shelving with a finished look. Heavy gauge seismic backs also available.

Aisle Ties
Aisle ties add stability to units or ranges by connecting them across the aisle.

Wall Ties
Wall ties secure shelving units to the wall for added stability.

Periodical Shelf
Used for displaying media such as magazines, journals, etc.

Seismic Full Height Center Divider
Used to help reinforce shelving units in seismic zones.

Center Stop/Back Stop
Support shelf dividers and keep items where they belong with back-stops (single side) and center stops (double sided).

File Cart
Ideal for temporary storage for retrieving and moving volumes of file folders. Available in 42” and 65” heights, with double or single entry shelves.
L&T Shelving
Better Than Conventional Filing & Storage Equipment

60% More Storage Space

By utilizing vertical space rather than floor space, L&T saves 60% more floor space than conventional filing equipment.

Easily Expands With Your Needs

All L&T Shelving Systems incorporate the ability to be reconfigured at any time to meet changing needs. Its unique key-hole slot design allows expansion as your business needs grow.

L & T Shelving’s unique design offers the ability to adjust shelves up or down to accommodate your exact requirements. This feature means you store more per square foot than other lesser shelving systems!
Assembling L&T Is Literally a snap!

First, place uprights opposite each other held up with a shelf support. Then starting from the bottom, snap in two shelf supports and shelf reinforcements if needed for greater load capacity. Next place a shelf on the supports.

Second, working from the bottom-up, place an additional set of shelf supports in position and place a shelf on the supports. Continue until all shelves including the top are in position. Accessories such as dividers, back-stops, front bases, etc may be added.

Third, add extra sections by using “T” uprights as common center posts and finish the row with “L” uprights. Install the shelves as before.
A Place For Everything and Everything in its Place

L&T Modular Drawers offer a unique storage capability that conforms to your materials, not the other way around. A variety of drawer sizes can be custom compartmentalized to provide instant organization. Drawers can be added to any 15", 24" or 30" depth L&T Shelving installation for even greater flexibility and storage capability. Fully progressive side-arm suspensions are rated for loads of up to 200 lbs. per drawer.

Dual Entry
With accessibility from both sides of the unit, the L&T Modular Drawer System maximizes workplace efficiency by allowing multiple users access simultaneously. Available for 30" and 36" deep units only.

12" Lateral File Option
Handles folders in letter or legal sizes. Available in 15" or 18" depths only.

Easiest Installation Ever
The new scissor-action bracket standard on L&T Modular Drawer Systems reduces installation time and complexity by 50%.
L&T Modular Drawer
The Ideal Storage Solution.

L&T Modular Drawer System is the ideal storage solution where small items need to be stored along with filing or larger items. You'll also find that combining L&T Modular drawers with your shelving makes it possible to store 50% more small parts and media in the same space. Each drawer rides on a fully progressive side-arm suspension rated for loads up to 200 lbs. per drawer.

Limitless Storage Applications

Audio/Visual Materials
L&T offers a simple storage solution for audio/visual tapes, microfiche and CDs. Items are easy to locate and retrieve.

Computer Media
Growing computer use requires more storage space for ZIPs, CDs, tapes and disks. L&T provides an efficient solution.

Forms & Specialty Documents
Keep odd-sized business, legal and financial forms and documents clean and organized with versatile L&T Modular Drawers.

Collections & Artifacts
L&T Modular Drawers provide effective space-saving storage solutions for even the most unique applications.

Partitions/Dividers
Drawer partitions adjust without tools to create 2, 3, 4, 5, 6 and 8 equal rows or columns for easy organization. Dividers with easy-to-see angle labeling area, adjust in 1” increments to meet your exact storage needs.
